***Claim Rejections - 35 USC § 112***

Claims 1-8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In the claims, processing information to “detect errors” and/or “extract information” from the “third party” standard file layout was not described in the specification.

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the claims “standard file layout” is vague and indefinite with respect to the standard and the layout.

In the claims “processing to detecting errors” is vague and indefinite as to the algorithm what is being evaluated or how it is being evaluated.

In the claim “a third party error” is vague and indefinite as it is not clear how a first party can detect an error from a third party without data bases of the third party. Accordingly, the relationship between the first party and the second party is vague and indefinite.

In the claims determining third party charges from the error detected information is vague and indefinite as it is not clear how the charge is being determined

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3693

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
